**KEEP INTERNET USE SAFE AND IN COMPLIANCE  
WITH YOUR COMPANY POLICIES**

# NetOp® Netfilter

Don't count on your policies to be enforced. Make sure they are!

## GET THE FULL PICTURE

It's sometimes difficult to separate business from pleasure when using the Internet. While most conventional content filtering solutions fall short and are either too restrictive or too lenient, NetOp Netfilter distinguishes safe from unsafe with almost perfect accuracy.

With powerful reporting and logging tools and a unique filtering logarithm, it provides the technology and tools necessary to guide your employees and prevent problematic web behavior.

NetOp Netfilter is a 100% dynamic content filtering solution that combines image, text, and behavior analysis to give you peace of mind – with no updates needed. Extremely fast, extremely accurate, and extremely easy to use, NetOp Netfilter simply gives your company the full picture.
